The Unbreakable Nail Puller

No. 20

Every One Tested and Warranted

Unbreakable Rammer. The rammer of this puller is made of **Chrome Nickel Iron** which cannot be broken under the hardest strain to which a nail puller is subjected.

Oval Shape. This Nail Puller will not roll as the Rammer is oval and the new design shank cannot turn in the handle.

Detachable Claw. The Nail Puller Claw bears the brunt of the work and on the "Unbreakable" Puller the claws are interchangeable and can be easily detached and replaced when worn out.

Box Joint. This construction keeps the jaws always in alignment so they grip the nail centrally and do not slip off. **It also gives great strength and long wear.**

Hand Guard. It is impossible to pinch the hand with this puller. The improved hand guard forged on the shank gives absolute protection.

The "Unbreakable" Puller is very attractively finished. All steel parts are polished. The Rammer is enameled jet black and the handle or grip finished in red enamel.

All materials used in the "Unbreakable" Nail Puller are the finest obtainable for the purpose. The jaws are very carefully hardened and tempered by skilled workmen and every puller is carefully tested before it leaves the factory.

Size, 18 inch.

Weight, 4 lbs.

List Price, \$30.00 per dozen

Packed 3 dozen in a case.

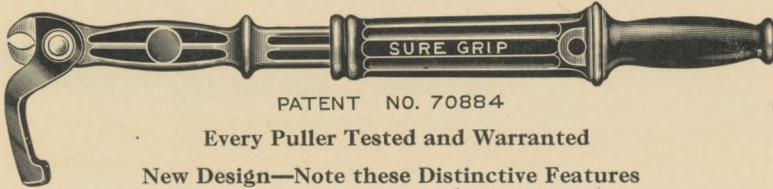

Size of case, $2\frac{1}{2}$ cubic feet.

Gross weight, 165 lbs.

Net weight, 146 lbs.

New Suregrip Nail Puller

No. 56

Every Puller Tested and Warranted

New Design—Note these Distinctive Features

All working parts are forged from special analysis steel; great strength and long wear.

Shank and Hand Guard forged all in one piece; comfortable grip and positive protection.

Sharper, Stronger Jaws. Require less ramming; do not slip.

New Rocker Arm. Great leverage; nails are pulled straighter; saves labor.

Automatic Claw. No springs; always ready for use.

Box-Joint Construction. Keeps jaws in line; insures positive grip on nail.

Handle finished in jet black enamel, other parts natural steel finish with points of jaw polished bright.

Size, 18 inch.

Weight, 4 lbs.

List Price, \$18.00 per dozen

Packed 3 dozen in a case.

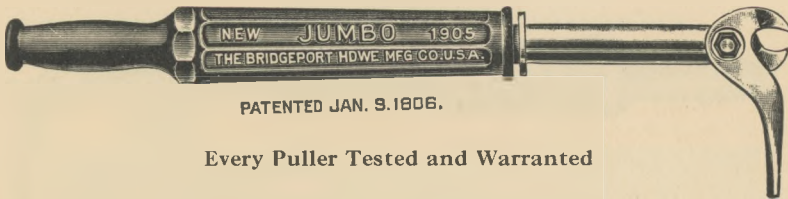

Size of case, $2\frac{1}{4}$ cubic feet.

Gross weight, 160 lbs.

Net weight, 140 lbs.

New Jumbo Nail Puller

No. 57

Every Puller Tested and Warranted

Quality and Workmanship. A high grade tool, jaws and shank forged from the finest quality tool steel. Forging, hardening and tempering done by men of long experience.

Construction and Finish. Hand guard protects the user's hand. Claw fastened to shank with a bolt and nut which permits tightening when loose from wear. New style frictionless Rammer so cored that it works smoothly. Steel parts polished. Rammer finished in jet black enamel.

Size, 18 inch.

List Price, \$20.00 per dozen

Packed 3 dozen in a case.

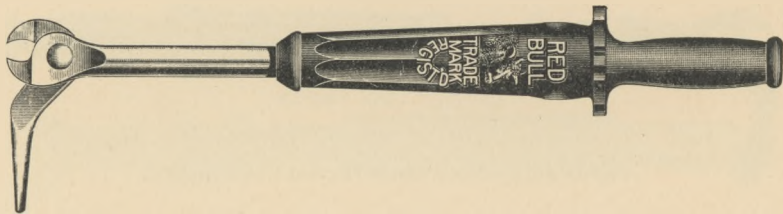

Size of case, $2\frac{1}{4}$ cubic feet.

Gross weight, 188 lbs.

Net weight, 166 lbs.

Red Bull Nail Puller

No. 54

Every Puller Tested and Guaranteed

Shank and Claw are forged from a fine grade of special steel, hardened and tempered by expert workmen. Foot of claw is flat and broad, which prevents splitting of thin box lids.

Rammer shaped to give the maximum of strength. The Red Bull will not roll on account of the four knobs just below the handle, which also provide an easy rest for the hand.

Finish. Very attractively finished, the rammer being jet black with the grip enameled in bright red. Shank and claw are nicely polished.

Size, 18 inch.

List Price, \$18.00 per dozen

Packed 3 dozen in a case.

Size of case, $2\frac{1}{4}$ cubic feet.

Gross weight, 184 lbs.

Net weight, 163 lbs.

Rex Nail Puller

No. 64

Trade Mark Registered in Japan, May 1, 1924

Certificate No. 160453

A Reliable Tool

Jaw and shank forged from good quality steel, hardened and tempered.

Jaw and shank, black oil finish, with points fine polished, handle finished in jet black enamel.

Size, 18 inch.

Weight, $4\frac{1}{4}$ lbs.

Packed 3 dozen in a case.

Size of case, $1\frac{3}{4}$ cubic feet.

Gross weight, 168 lbs.

Net weight, 149 lbs.

The Tomahawk Tool

A HATCHET—HAMMER—NAIL PULLER—BOX CHISEL
A Handsome Three Color Lithographed Steel Display Stand as shown
below, packed with each $\frac{1}{2}$ dozen Tomahawks

A "Silent Salesman" That Will Earn Good Profits
One of the Handiest Tools ever made for use in Store, Office,
Warehouse or Home

The TOMAHAWK is really four tools in one; all of them good, and its many uses are too numerous to mention. It is built just right to stand use and abuse wherever there is CUTTING, PRYING, NAIL PULLING or HAMMERING to be done.

Made all in one piece from high quality carbon steel, drop-forged, properly hardened and tempered. Very attractive finish, blued steel with polished claw. Fitted with comfortable, oval, hardwood scale handle, securely riveted. This solid construction makes the TOMAHAWK practically INDESTRUCTIBLE.

Each tool packed in individual carton.

No. 99-S. TOMAHAWK—Packed $\frac{1}{2}$ dozen in box with Display Stand.

No. 99. TOMAHAWK—Without Display Stand.

Tomahawk Jr. Tool

No. 9

"The Handy Home Tool"

Drop forged from a high grade steel and is practically indestructible.

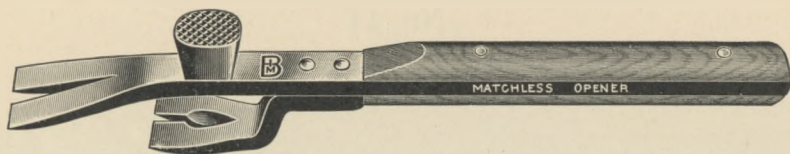

Useful as a nail puller—box opener—ice chopper—tack puller—hammer—nut cracker and for many other odd jobs.

Gun metal finish—Cutting edge, claws and hammer face polished.

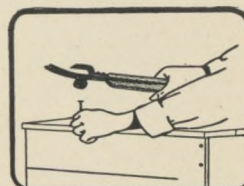

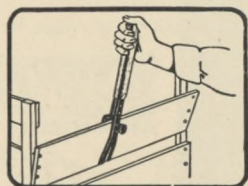

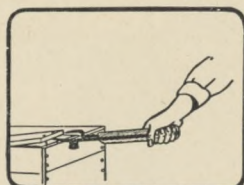

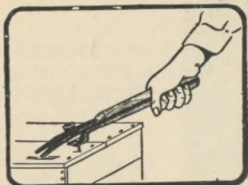

List Price, \$6.00 per dozen

Length, 9 1/4 inches.	Weight, 9 ounces each.
Individual boxes.	12 dozen in a case.
Gross weight of case, 112 lbs.	Net weight, 80 lbs. Volume, 2 1/2 cubic feet.

The Matchless Opener

Patented Sept. 20, 1908

A Tool of Great Usefulness and Strength Combining Chisel, Hammer and Nail Puller

An exceptionally good tool for opening boxes, crates, barrels, etc., and very handy for many other purposes.

Made of high grade drop forged steel. The hardwood scales, securely riveted on, form an oval handle which fits the hand perfectly. It will stand the hardest use and abuse for years.

The cupped cleft in the lower claw is a feature. Nails cannot slip out from the cleft when pulling them.

Length, 13½ inches.

Packed ½ dozen in a box.

Weight, 26 ounces each.

6 dozen in a case.

No. 90. Natural steel finish, polished claws.

List Price, \$12.00 per dozen

Size of case, 3½ cubic feet.

Gross weight, 140 lbs.

Net weight, 110 lbs.

Forged Steel Box Chisel

Forged from Bar Steel, Hardened and Tempered

No. 10. Polished all over.

List Price, \$6.00 per dozen

No. 20. Black steel finish, points polished.

List Price, 5.00 per dozen

Size, ½ x ¾ x 13½ inches.

Packed ½ dozen in a box.

10 dozen in a case.

Size of case, 1½ cubic feet.

Gross weight, 163 lbs.

Net weight, 146 lbs.

The Karton Cutter

No. 14

A new tool of great usefulness needed many times a day in every store

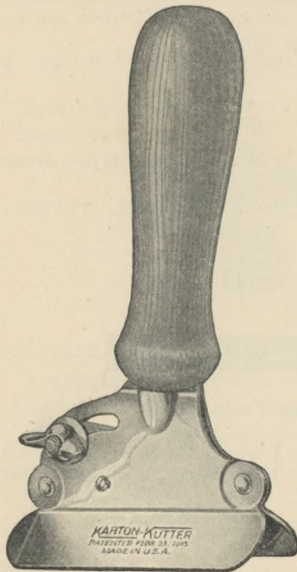

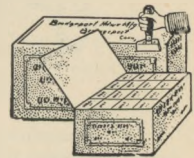

BLADE CAN BE TAKEN OUT TO RESHARPEN

ADJUSTABLE FOR CUTTING THICK OR THIN CARTONS

BLADE LOCKS IN ANY POSITION

BLADE FOLLOWS CORNERS OR CUTS STRAIGHT ACROSS BOX AS DESIRED BUT DEPTH OF CUT IS REGULATED — INSIDE BOXES ARE PROTECTED.

The first really practical device for opening fibre or corrugated paper shipping containers

It opens all kinds quickly and neatly. Three motions as shown and they open "like a book."

Leaves cartons in fine condition to use again.

Cutting blades made of razor blade steel, perfectly hardened and tempered and will give long service, and can be resharpened.

Perfectly safe to handle—sharp edge is protected.

Handle and frame securely riveted together. Extra strong construction.

Attractively finished—full nickel plated and buffed frame, red varnished hardwood handle.

Packed $\frac{1}{2}$ dozen in a box with attractive display card shown above in each box.

List Price, \$1.00 each

6 dozen to a case.

Length over all, 6 inches.

Weight, 6 ounces each.

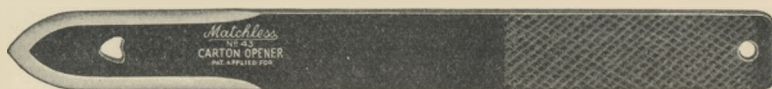

Gross weight, 46 lbs.

Net weight, 20 lbs.

Volume, $2\frac{1}{2}$ cubic feet.

Matchless Carton Opener

No. 43

A high grade, tempered steel tool for slitting and prying open corrugated paper shipping containers, fiber cartons, etc. Operates quickly and easily, always ready for use. Ebony finish with polished edges. Handle end is knurled and finished in bright red enamel.

List Price, \$7.00 per dozen

Length, 14 $\frac{3}{4}$ inches.

Packed individually in heavy envelope.

12 dozen in a case.

Gross weight, 122 lbs.

Net weight, 96 lbs.

Volume, 3 cubic feet.

The 20th Century Hammer

No. 105

A Combination Hammer and Opener for Boxes and Barrels

The 20th Century Hammer takes the place of an ordinary nail hammer and is much more useful for odd jobs. It will outlast two ordinary hammers.

It is made of forged steel with both claws and hammer head hardened and tempered. Two hardwood scales riveted to the steel portion form an oval handle. Polished claws and hammer face. Waterproof finish on handle.

List Price, \$12.00 per dozen

Length, 13 inches.

Weight, 24 ounces.

Packed 6 dozen in a case.

Size of case, 2 $\frac{3}{4}$ cubic feet.

Gross weight, 134 lbs.

Net weight, 114 lbs.

The Matchless Hatchet

No. 180

The Unbreakable Hatchet That Cannot Lose Its Head

Drop forged in one piece from the finest quality steel and tempered to hold a sharp edge.

Weight and balance just right for a general utility hatchet.

Attractive full polished finish on head.

Hardwood scales riveted on shank form a comfortable grip.

Packed $\frac{1}{2}$ dozen with attractive metal display stand in a box. Weight of stand, 12 ounces.

List Price, \$18.00 per dozen

Length, $12\frac{1}{2}$ inches.

Weight, 28 ounces.

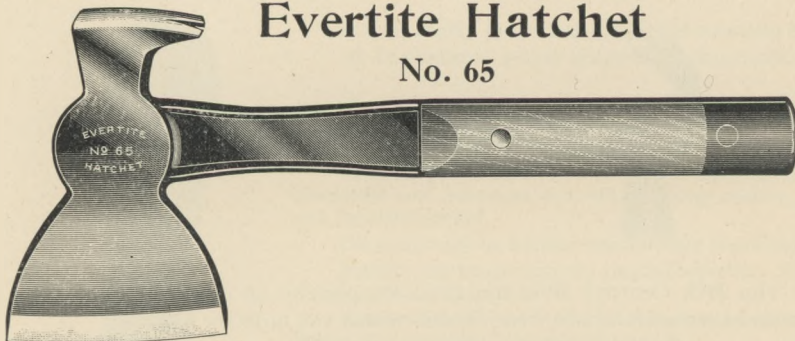

Packed in individual boxes.

4 dozen in a case.

Gross weight, 182 lbs.

Net weight, 84 lbs.

Size of case, $6\frac{1}{2}$ cubic feet.

Unbreakable One-Piece Construction

Fine quality tempered steel. Hammer-forged, all in one piece. Impossible for the handle to break or head to loosen or come off. Safe, durable and trouble-proof under the hardest working conditions. Fitted with hardwood scales, giving comfortable grip. Black enamel finish, with polished claw and edge. Varnished handle with red tip.

List Price, \$15.00 per dozen

Packed 1 in a box.

Weight, 28 ounces.

Gross weight, 174 lbs.

Net weight, 126 lbs.

6 dozen in a case.

Length, $12\frac{1}{4}$ inches.

Volume, $6\frac{1}{2}$ cubic feet.

Perfection Scraper

No. 16

The construction of this tool is ideal for a box scraper. The handle is formed by riveting two hardwood scales to the steel bar to which the blade is fastened.

This construction provides an oval handle which is very strong and will never loosen. It gives weight to the tool, which is a big advantage.

A heavy box scraper "takes hold" and cuts easily, requiring little pressure or power from the operator.

Blade is made of high grade tool steel, carefully hardened and tempered.

It can be quickly turned to bring either of the three cutting edges into play, or removed for sharpening.

Width of blade, 3 inches.

Length over all, 13 inches; weight, 24 ounces.

List Price, \$12.00 per dozen

Extra blades for above,

List Price, 6.00 per dozen

Packed $\frac{1}{2}$ dozen in a box.

6 dozen in a case.

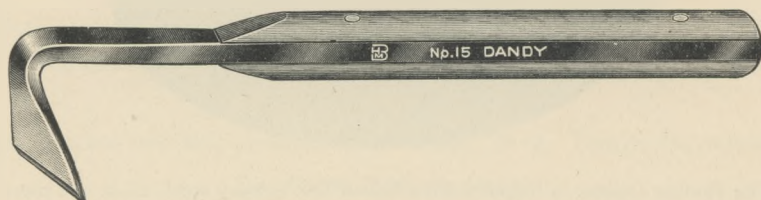

Size of case, $2\frac{1}{2}$ cubic feet.

Gross weight, 128 lbs.

Net weight, 108 lbs.

The Dandy Box Scraper

No. 15

Similar in construction to the Perfection Scraper shown above but with only one cutting edge.

Width of blade, 2 inches.

Length, $12\frac{1}{2}$ inches.

Weight, 20 ounces each.

List Price, \$9.00 per dozen

Packed $\frac{1}{2}$ dozen in a box.

6 dozen in a case.

Size of case, $1\frac{1}{2}$ cubic feet.

Gross weight, 114 lbs.

Net weight, 96 lbs.

The Hooker Crate Opener

The best pocket tool for opening boxes, crates, barrels,
prying off lids, hammering, etc.

Patented April 21, 1914

Every one warranted

An exclusive patented feature of this tool is the cleft or "hook" in the side. This makes it effective for pulling nails which cannot be drawn with ordinary crate openers.

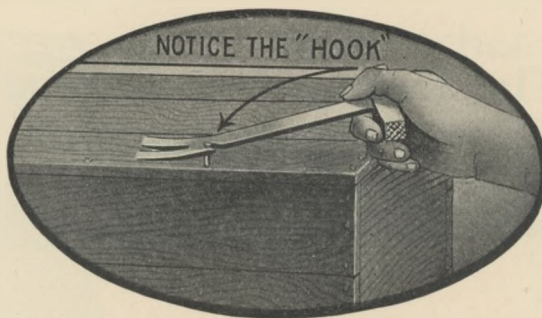

A nail can be gripped in most any position and at just the right angle to pull easily.

One face of hammer-head scored, one plain polished.

Weight, 15 ounces.

Length, 9 inches.

An Exclusive New Feature and a Big Improvement

The Hooker Opener is forged from a bar of fine quality steel, all in one piece. It is very carefully hardened and tempered and finely finished.

No. 40. Natural finish, with claw and face of head polished.

\$9.00 per dozen

No. 42. Full polished, heavily nickel plated and buffed.

12.00 per dozen

Packed $\frac{1}{2}$ dozen in a box.

6 dozen in a case.

Size of case, $1\frac{1}{4}$ cubic feet.

Gross weight, 85 lbs.

Net weight, 68 lbs.

Box Terrier Crate Opener

Warranted

This Tool is Forged from a Bar of Fine Quality Steel all in One Piece

The Box Terrier was designed after careful study and the shape is exactly right. Easy on the hand and pocket. All edges are rounded.

Claw end hardened, tempered and tested. Hammer head hardened and tempered. One face scored, one smooth. Packed $\frac{1}{2}$ dozen in a box.

No. 80. Natural steel finish, polished claw. Weight, 14 oz. Length, $9\frac{1}{4}$ inches.

List Price, \$9.00 per dozen

No. 82. Nickel plated and buffed. Weight, 14 oz. Length, $9\frac{1}{4}$ inches.

List Price, \$12.00 per dozen

Packed 6 dozen in a case.

Size of case, 1 cubic foot.

Gross weight, 83 lbs.

Net weight, 68 lbs.

No. 96. Natural steel finish, polished claw. Weight, 10 oz. Length, $8\frac{1}{4}$ inches.

List Price, \$8.00 per dozen

No. 98. Nickel plated and buffed. Weight, 10 oz. Length, $8\frac{1}{4}$ inches.

List Price, \$10.00 per dozen

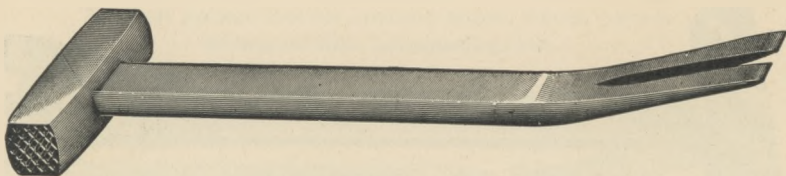

Packed 6 dozen in a case.

Size of case, 1 cubic foot.

Gross weight, 62 lbs.

Net weight, 50 lbs.

Nox Tox Crate Opener

Forged in One Piece. Warranted

Length, $9\frac{1}{4}$ inches over all.

Weight, 14 ounces each.

Hardened head, tempered claw. One hammer head scored, one plain.

No. 70. Natural steel finish, polished claw.

List Price, \$6.00 per dozen

No. 72. Full polished all over.

List Price, 10.00 per dozen

Packed $\frac{1}{2}$ dozen in a box.

6 dozen in a case.

Size of case, 1 cubic foot.

Gross weight, 83 lbs.

Net weight, 68 lbs.

Baby Terrier Crate Opener

A Perfect Pocket Tool

Just the right weight for light work and very strong. Forged from the bar in one piece, carefully hardened and tempered. Fits the pocket perfectly—no sharp edges.

Warranted

Weight, 8 ounces.

No. 76. Natural steel finish, polished claw.

List Price, \$6.00 per dozen

No. 78. Highly nickel plated and buffed.

List Price, 9.00 per dozen

Packed 6 dozen in a case.

Size of case, $\frac{3}{4}$ cubic foot.

Gross weight, 48 lbs.

Net weight, 36 lbs.

Matchless Screw Drivers

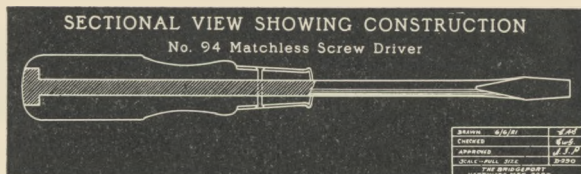

**Driving 8 Inch Through
Hardwood Timber**

The blades of Matchless Screw Drivers have enormous strength and will stand the most severe prying and twisting strains.

Handles are large in diameter—you can get a greater grip with a Matchless Screw Driver and turn any screw within blade capacity without cramping or tiring either wrist or hand.

**8Inch Size Supporting
Weight of Two Men**

The steel used in Matchless drivers is of a special analysis, found after many tests and years of experience to be the best for this purpose. Selected wood of great toughness and strength is used for the handles.

Heat Treatment

All blades are heat treated by a special process, making the points extremely tough and the shanks "springy," so they can be subjected to very severe strains without bending, when used for prying, etc. (See cuts above.)

Finish

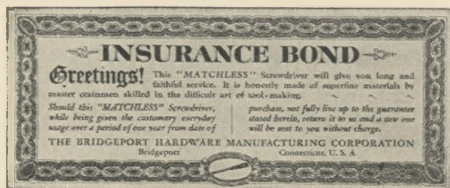

All steel parts finely polished. Handles have a smooth, dull black finish which will not crack or chip.

Reliability

Matchless Screw Driver blades are tested twice before assembly under greater pressure than the hand can apply.

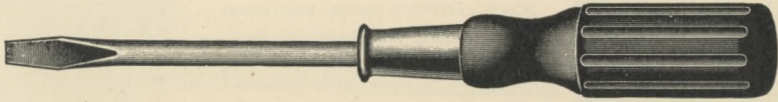

Guarantee

An "INSURANCE BOND" is packed with each No. 94 Matchless Screw Driver. It entitles the purchaser to a new driver without charge if the tool fails to give satisfactory service. A facsimile of the bond is shown below.

Matchless Screw Driver

No. 92

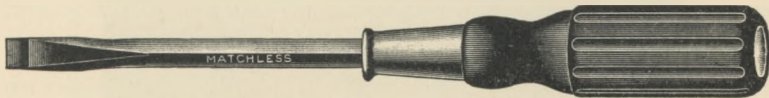

Blade securely held by special winging and by a steel pin through blade, ferrule and handle.

Size, inches,	2	2½	3	4	5	6	8	10	12
List Price, per dozen,	\$3.00	3.25	3.50	4.00	4.50	5.00	7.25	8.50	11.00

Matchless Machinists' Screw Driver

No. 93

Made with square blade so it can be turned with wrench or pliers when great power is needed.

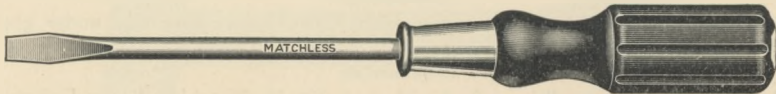

Steel extends clear through the handle and is held securely by a steel rivet through ferrule, blade and handle and by the hexagonal shape at butt.

Steel in butt is extra thick. They can be hammered on without injury to the driver.

Size, inches,	3	4	5	6	8	10	12
List Price, per dozen,	\$4.75	5.50	6.25	6.75	8.75	10.00	12.00

Matchless Mechanics' Screw Driver

No. 94

The blade extends through the handle and is held securely by the hexagonal shape at butt and by pin through ferrule, blade and handle.

The thickness of steel in butt permits hammering on it without injury to the driver.

See page 17 for complete information about construction.

Length of Blade, inches,	2	2½	3	4	5	6	8	10	12
Diameter, inches,	⅜	⅜	⅜	⅜	⅜	⅜	⅜	⅜	⅜
List Price, per dozen,	\$3.75	4.00	4.50	4.75	5.25	6.00	8.00	10.00	12.00

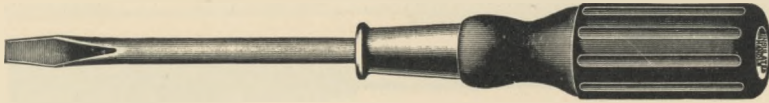

(For No. 40 Assortment of No. 94 Screw Driver, see page 24.)

All styles and sizes of Matchless Screw Drivers packed ½ dozen in a box.

Matchless Electricians' Screw Driver

No. 95

Insulated Handle

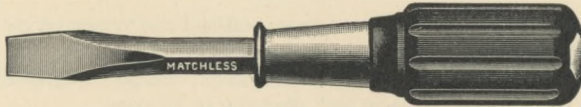

The shank of the blade on this driver is separated from the steel at the butt end of the handle by a fiber insulator. It can be hammered on without injury and the user is protected from electric shock. Each driver plainly marked: INSULATED HANDLE.

Size, inches,	2	3	4	5	6	8	10	12
List Price, per dozen,	\$4.00	4.50	4.75	5.75	6.50	9.00	11.00	12.00

Matchless Heavy Machinists'

No. 97

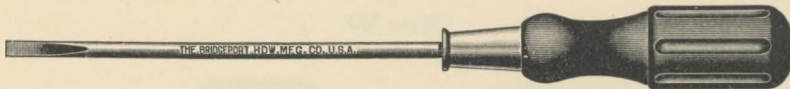

Heavy square blade. Wrench or pliers can be applied for greater power. Steel extends through handle and thick steel at butt can be hammered on without injury to the driver.

Length of Blade, inches,	2½	3½	4½	5½
Diameter, inches,	⅜	⅜	⅞	⅞
List Price, per dozen,	\$7.00	7.50	8.25	9.50

Matchless Electricians' Screw Driver

No. 98

Designed Especially for Electricians' Use

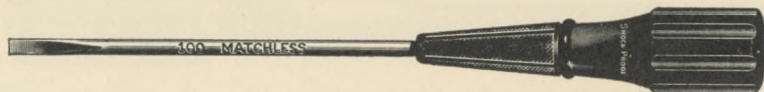

Blade $\frac{3}{16}$ inch in diameter (all lengths). Point is the same width as the shank, so recessed screws can be reached and turned. Magnetized points. Blade, ferrule and handle securely riveted together.

Size, inches,	2½	3½	4½	5½	6½	8½	10½
List Price, per dozen,	\$3.25	3.75	4.00	4.50	5.00	6.00	8.00

All styles and sizes of Matchless Screw Drivers packed ½ dozen in a box.

Matchless Shock Proof Screw Driver

No. 100

Designed Especially for Electrical Work

Mechanics in every line find it an exceptionally good screw driver for all kinds of light work and superior to the ordinary wood handle type.

Handles of special composition rubber moulded solidly around the shank of the blade eliminating the possibility of the handle becoming loose or turning. Tough and durable and will not crack or chip. Fluted and knurled design gives firm, comfortable grip.

Blades of a special, high grade steel finely polished and tempered the entire length. Point is the same width as shank so recessed screws may be reached and turned. Will withstand more than 10,000 volts of electricity. Blades magnetized—a feature appreciated by the user. Steel is $\frac{3}{16}$ inch diameter in all sizes.

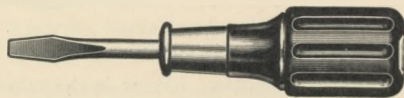

Packed $\frac{1}{2}$ dozen in a box.

Size, inches,	2½	3½	4½	5½	6½	8½	10½	12¾
List Price, per dozen,	\$4.25	4.50	4.75	5.25	6.00	7.00	9.00	11.00

(For No. 60 Assortment Matchless Shock Proof Screw Driver, refer to page 26.)

Matchless Baby Screw Driver

No. 99

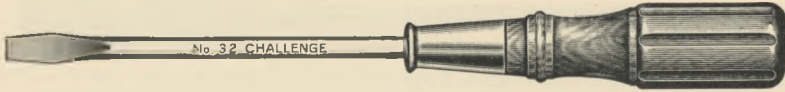

A Fine Little Tool for Small Work. Blade Extends Clear Through Handle

Length over all, 4 inches.

Blade, $\frac{3}{16}$ x $1\frac{1}{2}$ inches.

List Price, \$3.60 per dozen

Challenge Mechanics' Screw Driver No. 32

Fully Warranted

Round blade, forged from special analysis steel and tempered from ferrule to point. Heavy polished steel ferrule. Ferrule, blade and handle securely fastened together by steel pin. Fluted handle, stained dark red and varnished.

Every blade tested twice before assembly.

Size, inches,	2	3	4	5	6	8	10	12
List Price, per dozen,	\$3.00	3.50	4.00	4.50	5.00	5.50	7.00	9.00

Packed $\frac{1}{2}$ dozen in a box.

Challenge Electricians' or Cabinet No. 36

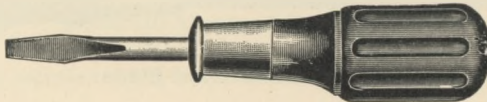

For Electricians' or Cabinet Makers' Use

Extra fine steel blade, tempered from ferrule to point. Polished steel ferrule. Red fluted varnished handle. Blade, ferrule and handle fastened together by flush rivet. Blades are magnetized—a feature appreciated by mechanics. Diameter in all sizes, $\frac{3}{16}$ inch.

Size, inches,	2½	3½	4½	5½	6½	8½	10½	12½
List Price, per dozen,	\$3.00	3.50	4.00	4.50	5.00	5.50	7.00	9.00

Packed $\frac{1}{2}$ dozen in a box.

Baby Challenge Screw Driver No. 37

Polished blade and ferrule. Fluted handle, stained cherry red and varnished.
Length over all, 4 inches. Blade, $\frac{3}{16}$ x $1\frac{1}{2}$ inches.

List Price, \$3.00 per dozen

Packed $\frac{1}{2}$ dozen in a box.

Giant Challenge Screw Driver

No. 38

Made especially for Millwrights, Engineers, etc., for long reaches and extra heavy work. Extra heavy, bull neck steel ferrule. Round blade $\frac{1}{2}$ inch in diameter and fastened with steel pin through handle and ferrule.

Fluted handle with double grip. Red varnished finish. All steel parts highly polished. Every one warranted.

Size, inches,	15	18	24
List Price, per dozen,	\$15.00	18.00	24.00

Packed $\frac{1}{2}$ dozen in a box.

Vulcan Mechanics' Screw Driver

No. 252

Octagonal Tool Steel Blade

Blade forged from special octagonal steel, hardened and tempered from point to ferrule, natural black finish, with flat sides of point highly polished. Hardwood handle, black "Rubberoid" finish, nickel plated ferrule, polished and buffed. Blade, ferrule and handle are securely riveted together with heavy steel pin.

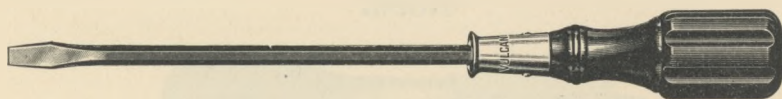

The blade in this driver is exceptionally strong and springy. It will withstand an enormous prying strain, and spring back straight and true if bent.

Size, inches,	1 $\frac{1}{8}$	2	2 $\frac{1}{2}$	3	4	5	6	8	10	12

Packed $\frac{1}{2}$ dozen in a box.

Hercules Knife Handle Screw Driver

No. 102

Patented August 26, 1913

Superior for Motorists, Repairmen, Plumbers, etc., who use screw drivers for prying, etc.

An improved tool in the popular knife handle type. The blade is made of high grade special steel, heat treated by a method that makes it wonderfully strong and springy. It is fastened into the handle by a patented process giving the same strength in the handle as the one piece drivers of this pattern, but **far greater strength in the blade, which is the all important part.**

For those who use screw drivers for extra hard jobs—prying with the blade, hammering on the butt, chiseling, etc.—the Hercules is in a class by itself. It will "stand up" under more hard use and abuse than any other screw driver.

Wood scale handle, natural wood polished. Waterproof finish.

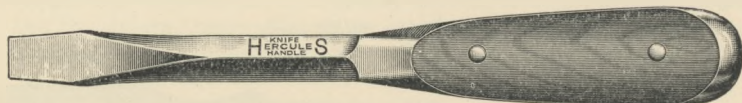

Size, inches,	2	3	4	5	6	8	10	12
List Price, per dozen,	\$4.00	4.25	5.00	6.50	7.00	9.00	12.00	14.00

Packed $\frac{1}{2}$ dozen in a box.

Hercules Knife Handle Screw Driver

No. 12

Heavy Machinists' Pattern

Especially Designed for Heavy Work

Square shank permits turning it with a wrench when great power is needed.

Length of blade, $4\frac{1}{2}$ inches. Length over all, $9\frac{1}{2}$ inches. Size of square blade, $\frac{7}{16}$ inch. Point, $\frac{9}{16}$ inch wide.

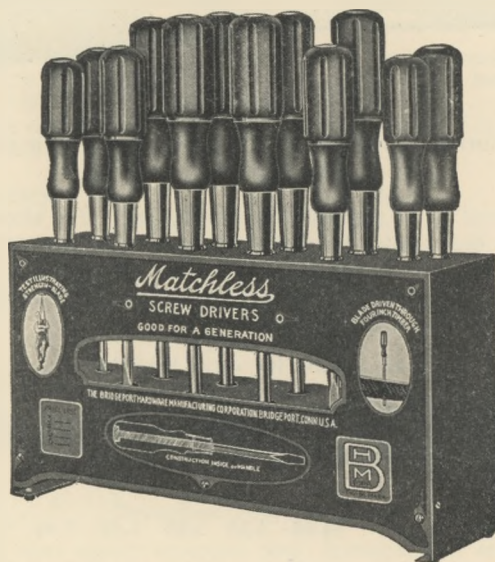

List Price (one size only, $4\frac{1}{2}$ inches), **\$12.00 per dozen**

Weight per dozen, 9 lbs.

Packed $\frac{1}{2}$ dozen in a box

Matchless Screw Driver

No. 40 Assortment

Comprises the following sizes of No. 94 Matchless Screw Drivers:

2—3 inch

4—4 inch

2—5 inch

4—6 inch

The stand is made entirely of welded steel enameled in four colors. It displays the Matchless Screw Drivers in a very attractive manner and is a REAL SILENT SALESMAN showing the points of merit clearly and quickly. This display stand alone is worth a dollar to any dealer. It pleases critical merchants who will give no space to anything but the finest dealer helps.

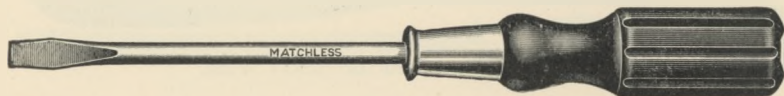

Note the rubber feet. It won't scratch. Each assortment in an individual container box.

Net weight, 6 lbs. each.

24 in a case.

Size of case, $6\frac{1}{2}$ cubic feet.

List Price, \$6.00 each

Blades are made of special analysis steel and are tempered from ferrule to point by a special process. They will withstand an enormous prying and twisting strain.

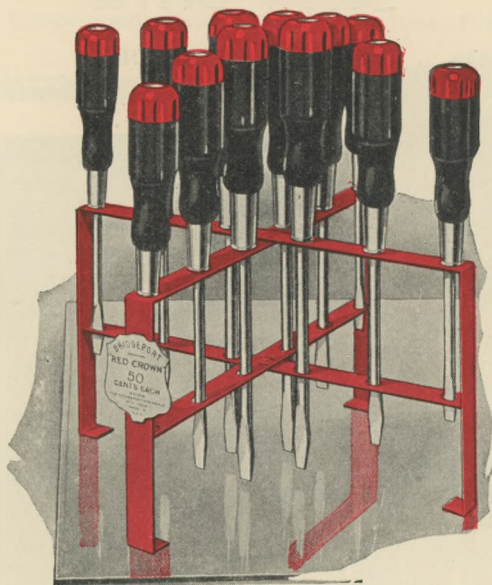

Steel extends clear through and the blade cannot turn in the handle. It is held securely by a heavy steel rivet through ferrule, blade and handle and by the hexagonal shape at butt.

Handles large in diameter, giving greater power for turning screws and will not cramp and tire the hand.

Bridgeport Red Crowns Sell Themselves!

No. 84 Assortment

- 4—4"x $\frac{1}{4}$ " blades
4—5"x $\frac{5}{16}$ " blades
4—6"x $\frac{5}{16}$ " blades

Blades
run clear through.
Hex Head
and Heavy Rivet
prevent twisting.

FINISH

Handles have a smooth, dull black Duco finish, with bright red crowns, which will not chip or crack. All steel parts finely polished.

STEEL

The steel used in Red Crown Screw Drivers is of special analysis, found after many tests and years of experience to be the best for this purpose.

HEAT TREATMENT

All blades are heat treated by a special process, making the points extremely tough, and the shanks "springy"—so they can be subjected to very severe strains without bending, when used for prying, etc.

GUARANTEE

Each Red Crown Screw Driver is factory tested and fully guaranteed against any defect in material or workmanship.

Net weight, 5 lbs. each. Packed 1 in a box. 24 in a case. Size of case, 4 $\frac{1}{2}$ cubic feet.

No. 84. Assortment Bridgeport Red Crown Screw Drivers. **List Price, \$6.00 each**

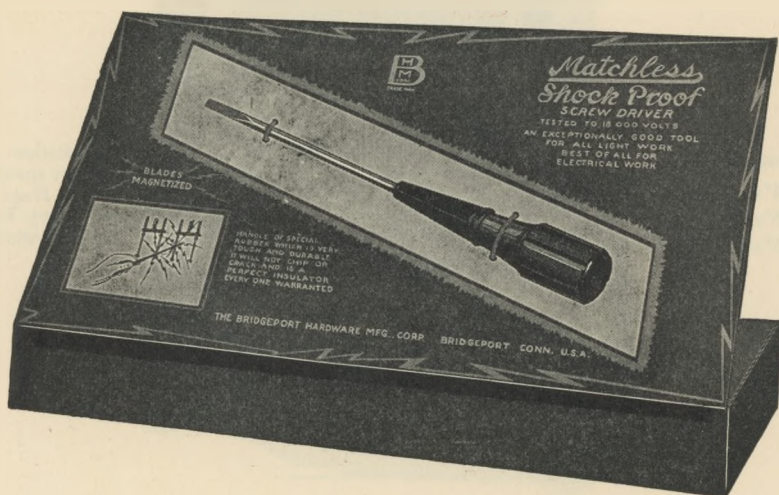

No. 83. Bridgeport Red Crown Screw Drivers, without display stand.

Size, inches	4	5	6	8
List Price, per dozen,	\$5.00	5.50	6.00	8.00

Packed $\frac{1}{2}$ dozen of a size in a box.

Matchless Shock Proof Screw Driver

No. 60 Assortment

Contains twelve of the **No. 100** Matchless Shock Proof Screw Drivers (shown on page 20) put up in an assortment of popular sizes.

Mechanics in every line like the design and balance of this screw driver. Finest obtainable quality, handsome display container box.

The point of every blade is tested and will not crack or chip—a fault common with many thin bladed screw drivers. Handle of special insulating hard rubber. Ferrule end is exceptionally long, giving ample protection to the user's hand. Will withstand more than 10,000 volts.

No. 60 Assortment comprises the following sizes:

2—3 $\frac{1}{4}$ inch. 3—4 $\frac{1}{2}$ inch. 2—5 $\frac{1}{2}$ inch. 3—6 $\frac{1}{2}$ inch. 2—8 $\frac{1}{2}$ inch.

Packed in an attractive display box finished in three colors—Red, White and Gold. A "SILENT SALESMAN" of real ability.

Each Assortment in an individual container box.

Net weight, 2 $\frac{3}{4}$ lbs. each.

18 in a case.

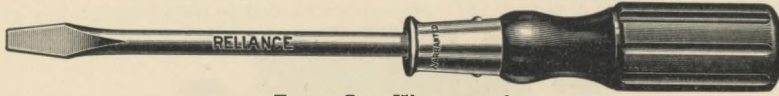

Size of case, 3 $\frac{1}{2}$ cubic feet.

List Price, \$6.00 each

Attractive
Metal Display Stand

A New Idea in Screw Drivers

COLOR that draws the eye and increases sales

Color—brilliant yellow and black—attracts attention to these Bridgeport Yellow Crowns wherever they are displayed. Their staunch quality completes the sale. The blades are fully polished—uniformly tempered throughout, with points **dual** tempered, to make them amazingly hard and tough. The ferrules are heavy nickel-plated steel—fastened on by bead lock, and equipped with rigid wings so blade **will not turn** in the handle. The handles are of fluted hardwood—thick, sturdy, easy to grip. The construction throughout is exceedingly strong—an assurance of long life.

Net weight, 4 lbs. each.

The New

NON-SKID

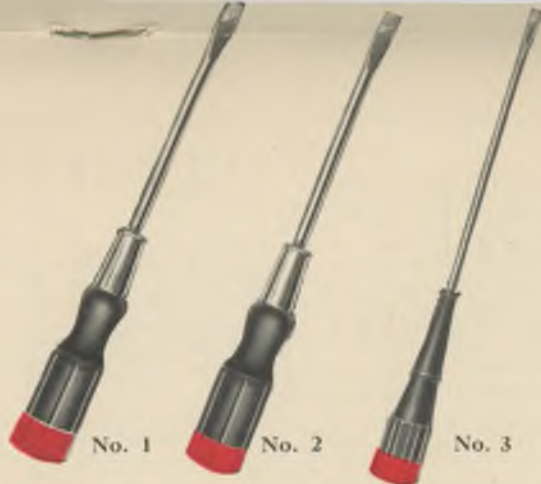

**Screw
Driver**

U. S. A. PATENTS

No. 1738405

No. 1741349

The

Blade extends clear through handle. One of the finest screw drivers made.

**45c
and up**

Blade made of "high-test" steel. Handle, ferrule and blade securely riveted together.

**25c
and up**

Shock-proof (10,000 volts). Designed especially for electrical and cabinet work. Slim blade with magnetized point.

**35c
and up**

The **Non-Skid Ribbed Blade** makes old-fashioned, smooth-blade screw drivers obsolete. Because of its non-slipping feature, it prevents gouging and marring of fine finishes or fragile parts—and drives screws with so much greater ease and speed. Every **mechanic, carpenter and electrician**, in fact everyone who uses a screw driver, will appreciate the advantages of the Non-Skid Bridgeport Red Crown.

(See Other Side of this Page)

The **RIBBED BLADE** *Prevents Slipping*

Drives Screws Easier

With the Non-Skid, all the effort is put into the turning of the screw—pushing is not required to keep the screw driver engaged in the screw slot.

Turns Battered and Rusted Screws

Because of its **ribbed blade**, the Non-Skid holds a firm grip even on battered and rusted screws.

Facilitates Overhead Work

The Non-Skid Bridgeport Red Crown greatly facilitates overhead work, where it is difficult to exert upward pressure; also all work where the screw driver reaches the screw head at an angle.

Prevents Injuries

The Non-Skid prevents accidents and personal injuries that result from slipping screw drivers.

Ideal for Self-Tapping Screws

With the Non-Skid, it is much easier to drive Parker-Kalon, or any other, self-tapping screw.

Lasts Longer

The Non-Skid blade wears longer because there is no slipping—lasts longer than a smooth blade. And there is less wear on the screw slot.

BRIDGEPORT NON-SKID

RED CROWN SCREW DRIVERS

3 POPULAR STYLES MADE WITH NON-SKID BLADE

The 3 best selling types of screw drivers are now made with the Non-Skid blade—an exclusive Bridgeport feature. The No. 1, for mechanics, has a blade which extends **clear through the handle**. It withstands the hardest hammering and the severest prying. The No. 2 has handle, ferrule and **high test steel** blade securely riveted together—an excellent tool at a popular price. The No. 3 Shockproof (10,000 volts) has a specially designed rubber handle, and a slim blade with magnetized point. It is ideal for electrical, cabinet and other fine work.

De Luxe Auto Tool Kit No. 80

Every Car Needs a Kit of REAL Tools

The No. 80 Kit is of striking appearance and de luxe quality. Tools are hammer forged from the finest steel, especially hardened and tempered, beautifully finished. Put up in highest grade, heavy-canvas divided roll, as illustrated.

Contains eight (8) of the most practical and useful tools, as follows:

- 12-ounce Auto Hammer, forged steel, finished in black rubberoid enamel, with polished face and poll; polished, white hickory handle.
- 9-inch Adjustable Wrench, semi-polished, with red enameled head.
- 4-inch Reliance Screw Driver, polished blade, plated ferrule, rubberoid handle.
- 7-inch Forged Steel Plier, slip joint, alligator jaw, polished, nickel plated and buffed.
- No. 23 Forged End Wrench. Milled openings, rubberoid finish, polished flats.
- No. 25 Forged End Wrench. Milled openings, rubberoid finish, polished flats.
- ½-inch Cold Chisel, forged, octagonal tool steel, rubberoid finish, polished flats and butt.
- ⅜-inch Solid Punch, forged, octagonal tool steel, rubberoid finish, polished taper and butt.

Weight, 3¾ lbs. each.

Packed, 50 Kits in a case.

List Price, \$4.50 each

Gross weight, 200 lbs.

Net weight, 175 lbs.

Volume, 3¼ cubic feet

Auto Tool Kits

All tools are of good quality Forged Steel, heat treated to give real service on automobiles, marine engines, etc. Natural steel finish.

These kits comprise 5 tools as follows:—

- One 10-ounce Ball Pein Hammer, hickory handle.
- One $\frac{6}{4}$ -inch Steel Plier, Thinose pattern.
- One 9-inch Adjustable Wrench.
- One Cold Chisel, $\frac{3}{8}$ inch x 6 inch.
- One 4-inch Service Screw Driver.

No. 500 Kit—5 tools as described above, put up in a canvas bag.

List Price, \$1.40 each

No. 501 Kit same as No. 500 except put up in a canvas, partitioned roll.

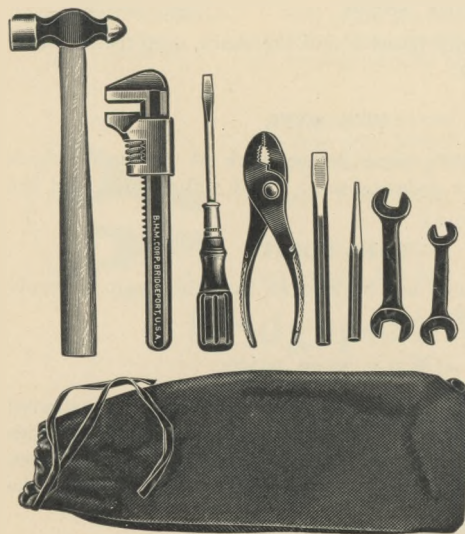

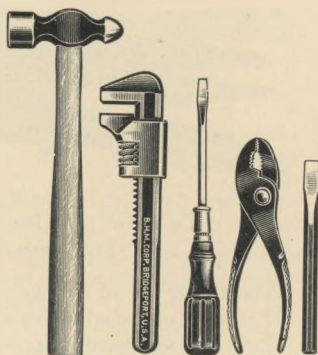

List Price, \$1.50 each

Packed 50 Kits in a case.

Gross weight, 155 lbs.

Net weight, 125 lbs.

Volume, $2\frac{1}{2}$ cubic feet.

These kits comprise 8 of the most generally needed auto tools. One each:—

- 10-ounce Ball Pein Hammer, hickory handle.
- $\frac{6}{4}$ -inch Thinose Steel Plier.
- 9-inch Adjustable Wrench.
- Solid Punch, $\frac{3}{8}$ inch x 5 inch.
- Cold Chisel, $\frac{3}{8}$ inch x 6 inch.
- 4-inch Service Screw Driver.
- No. 23 Double End Wrench.
- No. 25 Double End Wrench.

Packed 50 Kits in a case.

Gross weight, 175 lbs.

Net weight, 150 lbs.

Volume, $2\frac{3}{4}$ cubic feet.

No. 800 Kit comprises the above 8 tools packed in a canvas bag.

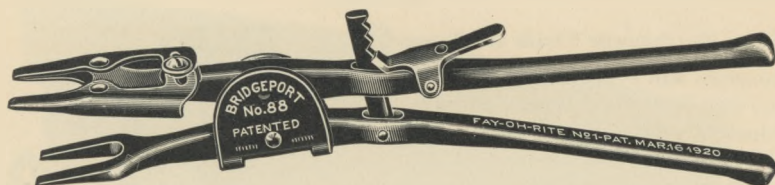

List Price, \$1.70 each

No. 801 Kit same as No. 800 except that it is put up in a canvas, partitioned roll.

List Price, \$1.80 each

Adjustable Fay Valve Lifter

No. 88

Made from Forged Steel
To Meet the Requirements of Automobile Mechanics
For Removing Valves from Gas Engines

The upper jaw of this valve lifter is **Adjustable** and can be **Opened** or **Closed** by a half turn of the adjusting screw to fit practically all types of gas engines.

This is a wonderful improvement and eliminates the delay and inconvenience of extra jaws or time spent in finding a suitable lifter.

QUICK ACTION

With the long handles the stiffest valve spring can be compressed with one movement.

RATCHET LOCK

The ratchet lock holds the jaws in any position and the sharp, deep teeth cannot slip or the spring lock release accidentally.

IT'S SAFE

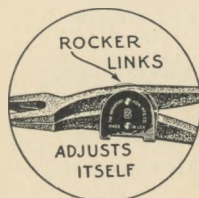

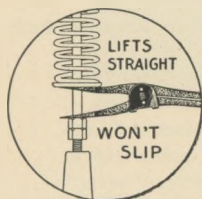

The forked ends when in use work at an angle, which holds them in place under tension. They will not slip and the lift is straight up.

THIN POINTS

The forked ends are beveled so that they can be easily inserted or withdrawn.

WILL NOT BIND

The two parts are joined by "Rocker Links," a patented feature. The "Rocker Links" permit the forked ends to work slightly forward and back, thus adjusting themselves when under pressure. This prevents binding or cramping of the valve stem or washer.

List Price, \$24.00 per dozen

Length, 12½ inches.

Packed one in a carton.

Weight, 25 ounces.

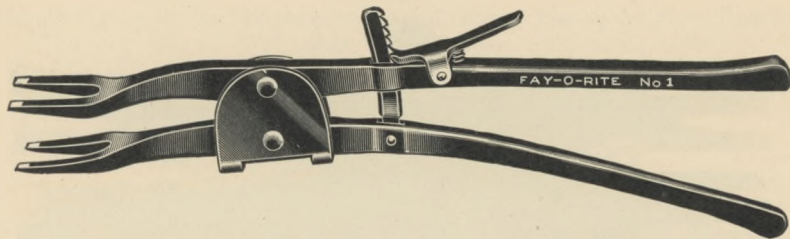

Gross weight of case, 119 lbs.

6 dozen in a case.

Net weight, 113 lbs.

Volume, 4½ cubic feet.

Fay=O=Rite Valve Lifter No. 1

A FORGED STEEL TOOL OF FINEST QUALITY

SAFETY FIRST—IT WON'T SLIP

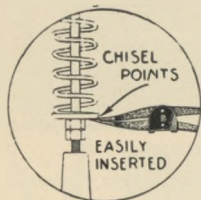

When in use the forked ends operate at an angle which holds them in place under tension. They will not slip out—a common fault with other Valve Lifters—and it lifts straight up. Positive ratchet lock holds in any position.

SELF-ADJUSTING

The two points are joined by "Rocker Links," a patented feature, which permits the forked ends to work slightly forward or back. This feature prevents cramping or binding of valve stem or washer. No more bent valve stems.

CHISEL POINTS—QUICK ACTING

When forked ends are together as shown, they form a shape like a chisel so they can be easily inserted.

DURABLE

All parts are made of high grade forged steel, and the construction is so simple and strong that it will "Stand Up" under the hardest use for many years. Every one guaranteed.

ADAPTABLE

Forked ends are strong and tough. They can be bent in a vise into any desired shape, and they will not crack or break. This permits using the Fay O-Rite on odd types of motors.

Length, 12½ inches. One in a box. Weight, 25 ounces.

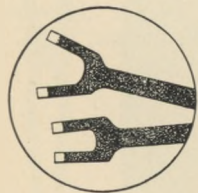

List Price, \$18.00 per dozen

Gross weight of case, 119 lbs.

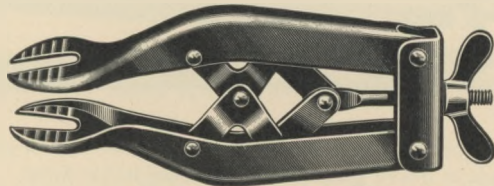

6 dozen in a case.

Net weight, 113 lbs.

Volume, 4¾ cubic feet

Bridgeport Valve Lifter No. 53

A compact and very powerful valve lifter. This tool because of its short length is very adaptable in reaching valves on front or rear cylinders, where space is limited.

List Price, \$7.20 per dozen

Packed ¼ dozen in a box.

Gross weight, 110 lbs.

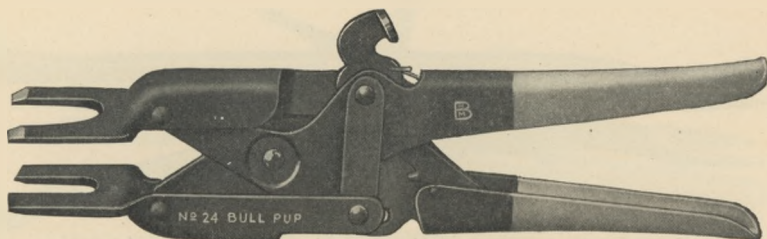

Length, 7 inches.

12 dozen in a case.

Net weight, 90 lbs.

Size of case, 2½ cubic feet.

"Bull-Pup" Valve Lifter No. 24

Tested and Approved by Expert Mechanics

Chisel Points—Easily inserted and withdrawn.

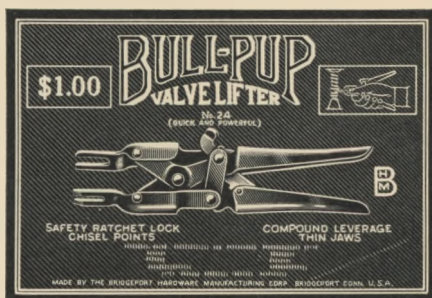

Compound Leverage—Powerful—works quickly and easily.

Parallel Lift—Prevents slipping—jaws seat firmly.

Ratchet Lock—Positive in any position.

Long Handles—Easily grasped when lifter is in position under manifold.

Finish—Blued steel with bright red enameled handles.

List Price, \$1.00 each

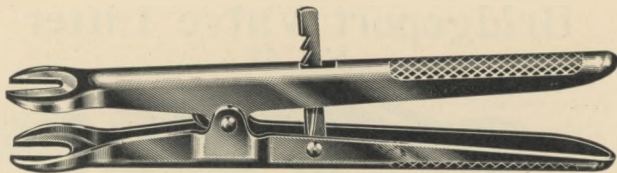

Attractive display stand with each 1/2 dozen.

Packed in individual cartons.
6 dozen in a case.

Gross weight, 64 lbs.

Length, 7 1/2 inches.
Net weight, 36 lbs.

Valve Lifter No. 12

A practical, inexpensive valve lifter. Spring ratchet lock is positive and easy to operate. Well made of heavy gauge steel, rust-proof nickel finish.

List Price, \$3.60 per dozen

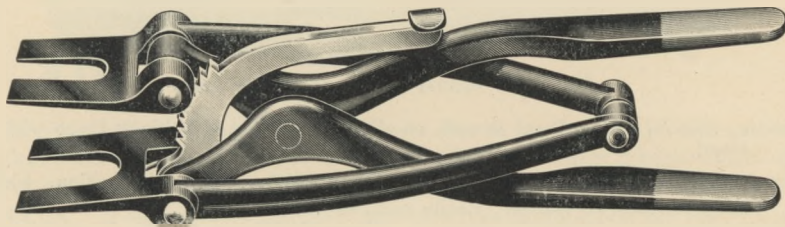

Packed 1/2 dozen in a box.
12 dozen in a case
Gross weight, 104 lbs.

Length, 10 inches.
Size of case, 3.2 cubic feet.
Net weight, 88 lbs.

Ford Model "A" Valve Lifter

No. 62

Designed Especially for Service Station and Garage Use on the New Model "A" and "AA" Fords

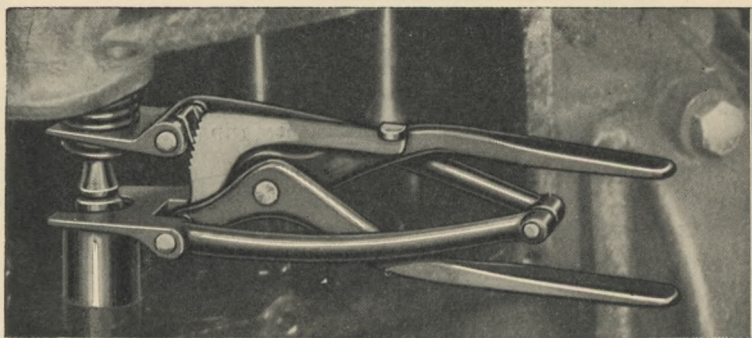

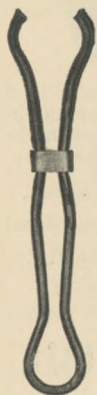

Safe—It won't slip. The upper jaw is especially shaped to fit in the helix of the spring.

Easy to Use—Quick Acting—The No. 62 is designed for fast sure work—powerful leverage.

Positive Lock—Ratchet lock between the jaws holds tight and firm, cannot be released accidentally. Note the deep teeth.

Model "A" Fords—Differ from other cars. There is no washer or pin in the valve mechanism. As shown below, the jaws of the Valve Lifter should fit in the coils of the spring. The No. 62 is endorsed by engineers and mechanics because it does the work on the new Fords better than any other.

COLLAR TONG

With each lifter a special Collar Tong is supplied for removing and inserting the valve collar.

No. 62 is forged from high grade steel, hardened and tempered to give lasting service. Each tool branded, tested and guaranteed. Blued finish with red enameled handles.

List Price, \$1.50 each

Length, $7\frac{1}{4}$ inches.

Packed one in a box with Collar Tong.

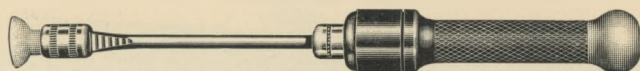

Weight, 1 lb.

6 dozen in a case. Gross weight, 90 lbs. Net weight, 72 lbs. Volume, $3\frac{1}{4}$ cubic feet.

"Speedy" Valve Grinder

Vacuum Cup Type

No. 220

For Ford Model "A" and Other Cars

Handle—Special design **Dual Speed**, no slipping. Finished in Black Duco with Red Head.

Removable Cups—Made of finest grade Red Para Rubber. Powerful suction. Flexible body to reach all valves. Easily replaced when worn.

Weight, 7 ounces. Packed 6 in a box with display stand. Length, 15 inches.

No. 220. Speedy Valve Grinders

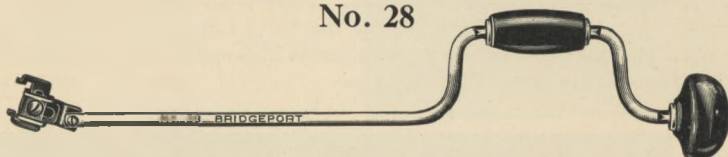

List Price, \$0.60 each

No. 22. Extra Vacuum Cups only

List Price, .15 each

The Bridgeport Valve Grinder

No. 28

For easy and accurate grinding of the valves for all cylinders. Adjustable to fit all sizes of pin or slot type valves by a half turn of the adjusting screw, without removing any parts of the fixture. Head may be tightened rigidly for jobs where a swivel action is not desired. Large wooden handle and center grip fitted with friction washers.

Handle and knob stained dark red.

Length over all, 22 inches.

No. 28. Packed $\frac{1}{2}$ dozen in a box. 6 dozen in a case. List Price, \$9.00 per dozen

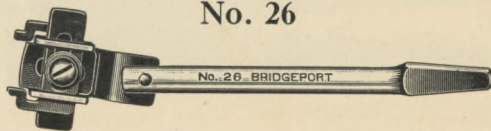

Gross weight, 102 lbs.

Net weight, 72 lbs.

Volume, $4\frac{1}{2}$ cubic feet.

The Bridgeport Valve Grinder Bit

No. 26

For use with an ordinary bit brace. Construction of fixture same as the No. 28.

Popular with both garage mechanics and the car owner who grinds his own valves.

No. 26. Packed $\frac{1}{2}$ dozen in a box.

List Price, \$6.00 per dozen

Length, $7\frac{1}{2}$ inches.

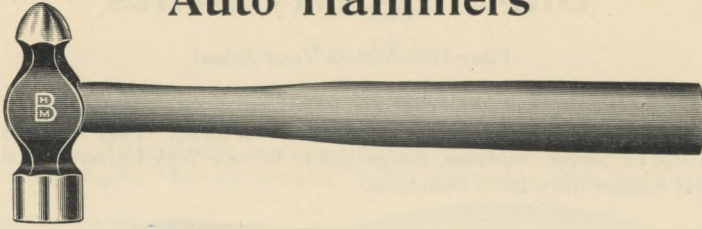

12 dozen in a case.

Gross weight, 55 lbs.

Net weight, 40 lbs.

Volume, $1\frac{1}{2}$ cubic feet.

Auto Hammers

Drop forged from high grade hammer steel with properly tempered face and pein. Heads secured on handles with the patented Bullard Perfect Wedge, which interlocks with the handle and guarantees a tight head.

No. 18. 12 ounce only, blued steel head with polished face, poll and pein. Tough hickory handle stained brown. **List Price, \$7.00 per dozen**

No. 86. Ebony rust-proof finish on head. Polished face and pein. Straight grained hickory handle, stained brown. Popular sizes as follows:

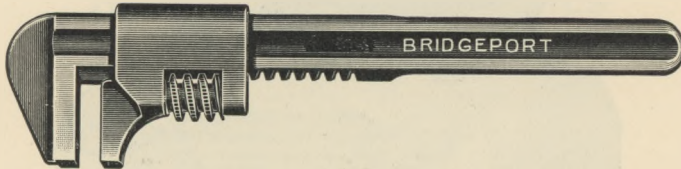

Weight of Head.	Length Overall.	Weight per Dozen.	List Price.
8 ounces	12 inches	8 lbs.	\$6.00 per dozen
12 ounces	11 inches	11 lbs.	7.00 per dozen
16 ounces	13 $\frac{1}{2}$ inches	15 lbs.	8.00 per dozen
24 ounces	16 inches	22 lbs.	9.00 per dozen

No. 1801. 12 ounces only, ebony finish head with polished face, natural finish hickory handle. **List Price, \$4.00 per dozen**

Packed $\frac{1}{2}$ dozen in a box.

10 dozen in a case.

Adjustable Wrenches

Drop forged steel bar. Extra strong adjustable jaw, malleable iron, hardened. Knurled steel adjusting screw. Jaws accurately milled. For auto and general use.

End Wrench Set

No. 475

For light work of all kinds. Popular with repair men, auto mechanics, electricians, etc. Very handy for adjusting nuts where space is limited. Thickness of head $\frac{1}{16}$ inch, length overall, $3\frac{3}{4}$ inches. Hy-Tone, mottled finish.

No. 475. Set comprises three wrenches, as illustrated above, in genuine leather pocket.

List Price, \$2.25 per dozen

Packed 1 dozen sets in a box.

Gross weight, 50 lbs.

Net weight, 30 lbs.

24 dozen in a case.

Volume, 1 cubic foot.

Hi-Power Tire Tool

A tire tool of fine quality and perfect design at a very moderate price. The use of tough steel, tempered the full length, gives great strength and it will stand an enormous prying strain. One end slightly curved at the proper angle to hook over rims or under tire casings. End of handle semi-knurled for a good grasp and to prevent slipping when hands are greasy. Width, $1\frac{1}{8}$ inches. Length, 18 inches.

No. 275. Bright finish.

List Price, \$3.00 per dozen

No. 280. Nickel plated and buffed, with handle end finished in black rubberoid.

List Price, \$6.00 per dozen

Weight, 22 ounces.

Packed 1 dozen in a box.

12 dozen in a case.

Gross weight, 225 lbs.

Thor Tire Tool

No. 250

A Very Strong Tool for Heavy Work

Size, $\frac{3}{8}$ x $\frac{1}{8}$ x 16 inches.

Made of very tough steel and tempered from end to end. Enormous power can be applied with the Thor and it will stand the hardest prying strains. One end is formed in a straight taper while the other is slightly curved at the proper angle to hook over rims or under tire casings. This tool is a favorite with tire repairmen.

Weight, 24 ounces.

Length, 16 inches.

Packed $\frac{1}{2}$ dozen in a box.

12 dozen in a case.

Gross weight, 214 lbs.

Net weight, 190 lbs.

Klose Kut Hack Saw

No. 68

This Hack Saw FITS where other saws cannot be used.

A new tool of unusual design for use where the ordinary hack saw would be very awkward.

A time saver and valuable addition to the tool kit of any auto mechanic, electrician, plumber, machinist, etc.

Each frame contains a specially designed, wave-set, 10 inch blade, but will take any 10 inch blade. Also uses broken blades.

Frame nicely nickel plated and buffed.

Attractive display stand with each $\frac{1}{2}$ dozen.

Net weight, 8 ounces. Packed $\frac{1}{2}$ dozen in a box.

No. 68. Klose Kut Hack Saw

Extra blades for above.

6 dozen in a case.

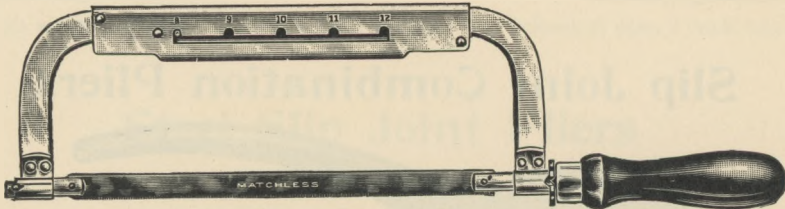

List Price, \$9.00 per dozen

List Price, 1.75 per dozen

Matchless Adjustable Hack Saw

No. 30

A Superior Tool

Every requirement of a high grade saw is combined in the Matchless. The rigid frame, speedy adjustment and extra strong construction of this tool are quickly appreciated by mechanics.

Great strength and durability in the handle and blade stretcher assembly are secured by the construction shown above. All metal parts are highly nickel plated and buffed. Black rubberoid finished handle made of hardwood. Adjustable for 8 inch to 12 inch blades.

One 8 inch blade with each frame.

Length, 15 inches.

Weight, 17 ounces.

List Price, \$24.00 per dozen

Packed one in a box.

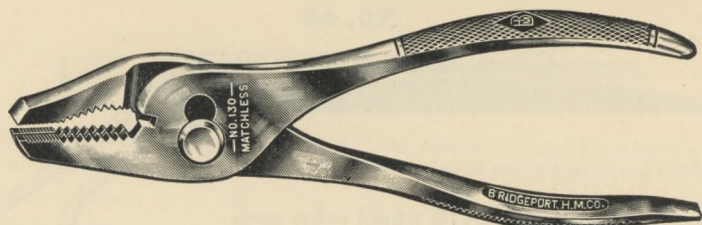

6 dozen in a case.

Gross weight, 122 lbs.

Size of case, $6\frac{1}{2}$ cubic feet.

Net weight, 78 lbs.

Matchless Combination Pliers

The Most Practical Plier of all for a Multitude of Uses in the Workshop, Home, Motor Car, Garage or Farm

Alligator Jaws and Slender Beveled Nose. Grips objects of any shape and holds them rigidly. Curved upper jaw gives a pipe wrench grip on objects from $\frac{3}{8}$ to $1\frac{1}{4}$ inches in diameter.

Screw Driver. A screw driver point on one handle for emergency use.

Wire Cutter and Holder. A practical wire cutter between the jaws. Groove in the lower jaw holds wire or other small round parts in a vise-like grip.

Made of forged steel of finest quality with milled teeth, knurled handle and cutters carefully hardened.

No. 266. 7 inch, polished, nickel plated and buffed.

List Price, \$9.00 per dozen

No. 1133. 7 inch, blued finish, with polished nose.

List Price, 4.00 per dozen

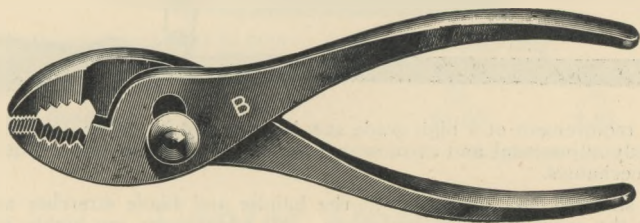

Packed $\frac{1}{2}$ dozen in a box.

12 dozen in a case.

Gross weight, 80 lbs.

Net weight, 60 lbs.

Slip Joint Combination Pliers

A good drop forged plier at a popular price. High carbon steel, heat treated, to give real service. Size $6\frac{1}{2}$ inch.

No. 134. Attractive mottled finish.

List Price, \$2.40 per dozen

No. 136. Nickel plated finish.

List Price, 3.40 per dozen

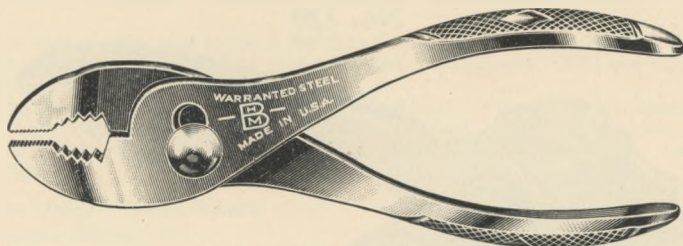

Packed $\frac{1}{2}$ dozen in a box.

24 dozen in a case.

Gross weight, 170 lbs.

Net weight, 145 lbs.

Thinose Pliers

"Tiger Grip"

A Truly Remarkable Plier Value

These pliers are the thin nose pattern, so popular for automotive work. They will work in places where space is limited and the ordinary plier is very awkward.

Good quality steel hardened just right. They will give lasting service. The jaws are milled right to the tip, where they come tightly together. This makes them exceptionally good for pulling cotter pins or similar work.

An unusual feature is the angular milling on the large teeth, which gives a much stronger grip.

The extra large bolt head cannot work loose and always keeps the jaws in line. Wire cutter between jaws.

No. 160. Nickel plated.

List Price, \$3.00 per dozen

No. 15. Blued finish.

List Price, 2.40 per dozen

Length, $6\frac{1}{2}$ inches.

Steel Slip Joint Pliers

No. 14

Well made steel pliers in the popular thin nose pattern, milled jaws, hardened and tempered. 6 inch size only. Scored handles.

No. 14. Hy-Tone, mottled finish.

List Price, \$2.00 per dozen

Packed 1 dozen in a box.

24 dozen in a case.

Gross weight, 115 lbs.

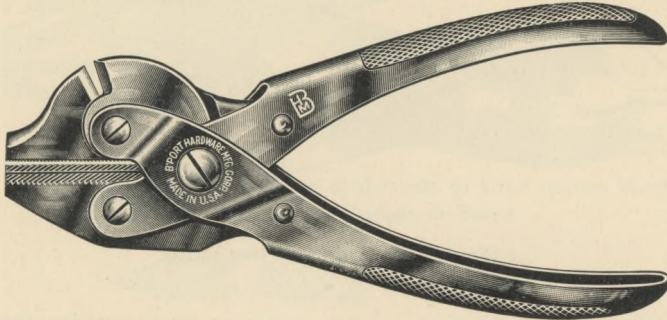

Net weight, 90 lbs.

Volume, 2 cubic feet.

The Hy-Power Side Cutting Plier

A Tool of Wonderful Strength and Durability for All Kinds of Jobs

No. 320

Ideal for the "Handy-man" who makes his own repairs, as well as for mechanics who require the very best in tools.

Compound leverage and parallel jaws give astonishing cutting power and a vise-like grip.

Hollow Box Joint keeps the jaws and cutting edges always in line, and a wire or rod can be thrust clear through. The jaws grip it rigidly at any point. Fine for stretching or bending wire.

Side Cutter located at a point where it will work at any angle and cut in places impossible to reach with ordinary pliers.

Interchangeable Jaws forged from special steel—can be easily replaced when worn out by hard shop use.

No. 320. Full nickel plated, beautifully finished.

Size, 7 inches.

Weight, 11 ounces each.

6 dozen in a case.

Gross weight, 70 lbs.

List Price, \$36.00 per dozen

Packed in individual boxes.

Size of case, 1½ cubic feet.

Net weight, 48 lbs.

No. 445 "Crow Bill" Plier

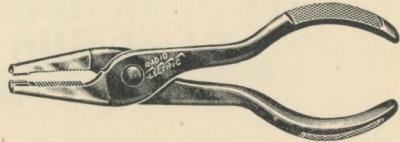

An ideal plier for all fine work. Long, thin, semi-round nose for jobs where other types of pliers are useless. Just right for wiring and enables the user to form perfect eyelets. Drop forged. Size 6 inches. Warranted. Packed 1 doz. in a box. 12 doz. in a case.

List Price, \$6.00 per dozen

Size of case, 1 cubic foot.

Gross weight, 50 lbs. Net weight, 25 lbs.

No. 442 Nut Forcep

A perfect grip on knurled, hex. and square nuts. Fine for cotter pin work, also for pins and horseshoe fasteners on gas engines. Radio builders will find it the only practical tool for knurled nuts and the Nut Forcep fits all sizes. Radiotricians—Auto Mechanics—Electricians.

Drop forged. Size 6 inches. Warranted. Packed 1 doz. in a box. 12 doz. in a case.

List Price, \$7.20 per dozen

Size of case, 2 cubic feet.

Gross weight, 55 lbs. Net weight, 36 lbs.

500 in case.

Size of case, $1\frac{3}{4}$ cubic feet.

Gross weight, 200 lbs.

Net weight, 190 lbs.

The Giraffe Reacher

No. 338

A perfect device for taking down bottles, cans, lamp chimneys, etc., from high shelves in a store and bringing them safely to the counter. It is also very convenient for dressing show windows. Length, $4\frac{1}{2}$ feet over all. An exclusive feature of the Giraffe is the 3-piece construction—the handle being jointed like a fish pole. This permits packing in a shipping container 20 inches x 5 inches.

The **Giraffe** can be held and operated with one hand. The jaws open automatically and are closed by pressing the hand lever—a simple locking device in the middle of the handle locks the jaws at any point.

The steel jaws of the Giraffe are covered with heavy rubber which eliminates slipping when handling glassware, etc.

A wonderfully effective device—like a human hand on an arm four feet long.

Individual Packing. Each reacher in a heavy corrugated carton suitable for shipping singly. **List Price, \$18.00 per dozen**

50 in a case. Gross weight, 140 lbs. Net weight, 100 lbs. Volume, 9 cubic feet.

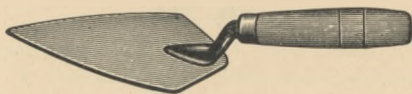

Bulk Packing. Especially for export, 100 reachers nested in a case.

Gross weight, 320 lbs.

Net weight, 275 lbs.

Volume, 15 cubic feet.

No. 400

Length of blade, 3 inches. Diameter, $\frac{3}{16}$ inch. Needle point.

1 dozen in a box.

24 dozen in a case.

Gross weight, 44 lbs.

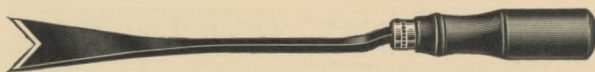

Size of case, $1\frac{3}{4}$ cubic feet.

Net weight, 21 lbs.

List Price, \$1.20 per dozen

Weed Digger and Asparagus Knife

No. 28

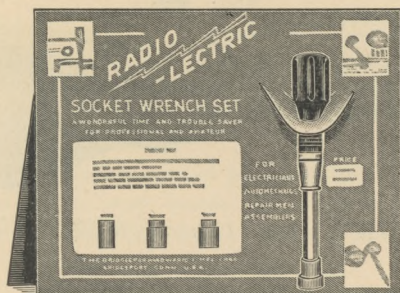

Drop forged steel blade, 10 inches long by $1\frac{1}{2}$ inches wide at point, ground sharp. Ebony finished shank, brass ferrule, hardwood handle, stained red. Length overall, 15 inches. Improved design, also used as a botanizing knife.

Packed 1 dozen in a box.

12 dozen in a case.

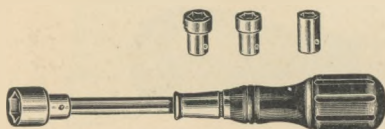

List Price, \$5.00 per dozen

Radio=Lectric Socket Wrenches

Sockets snap on to shank and assembly is quick. Hollow stem to take projecting screws. Strong but thin walls of sockets permit reaching nuts where space is limited. Tight connections are absolutely necessary for perfect reception. The Radio-Lectric Wrench saves time and labor. Also needed by electricians, auto mechanics, telephone repairmen and others.

No. 480 Set

Sizes $\frac{1}{4}$ - $\frac{5}{16}$ - $\frac{3}{8}$ inch.

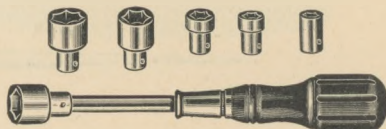

List Price, \$6.00 per dozen

One set to a box. 12 dozen in a case.

Size of case, 3 cubic feet.

Gross weight, 52 lbs. Net weight, 24 lbs.
